Appointment Needed: No.

Cost of Service to Clients: None.

Description Of Services:

The mission of Missouri Assistive Technology is to increase access to assistive technology for Missourians with all types of disabilities, of all ages. Programs and initiatives of Missouri Assistive Technology are directed by the Missouri Assistive Technology Council, which was established by state statute in 1993. The Council is charged to serve as an advocate for policies, regulations and programs to establish a consumer-responsive, comprehensive assistive technology service delivery system. The Council meets at least four times a year, reports annually to the Governor and the general assembly on Council activities to increase access to assistive technology, and provides programmatic direction for all activities and services.
