No.

Cost of Service to Clients:

None.

Description Of Services:

The Division of Children's Services believes that a safe and permanent home with family members is the best place for a child to grow up. Families need to make key decisions regarding their children's needs and that a cohesive system of child-focused, family-centered, community oriented, timely and accountable services provides the best support for children and their family. They offer Assistance programs that help keep families together and to help ensure a normal family life for children. They also offer Assistance grants, job training programs, and state assisted child care. They assist children by getting parents off welfare and working to provide for their families. Medicaid and MC+ for Kids, are health care -insurance programs for low-income people and working families who qualify.
